1. Introduction

1.2. Purpose

The Membership Module handles the functionalities of the Secretariate Division on Future Finance Institute District Offices and Head Office. The Module covers from the point of Member Registration to Member Cancellation due to retirement or termination.

This document illustrates the proposed functionalities of applying scholarships for Member's children. Funds are dispatched to the Members and/ or to the children's accounts as a scholarship based on their performance on the grade 5 Scholarship examination and University academic period.

1.2. Scope

This document covers the following scope from the Member Management Process.

- I. Applying for Grade 5 Scholarships
- II. Applying for University Scholarships

1.3. Definitions, Acronyms and Abbreviations

Abbreviation	Acronym
SRS	Software Requirement Specification

1.4. References

Not Defined

1.5. Overview

- Product Perspective
- Assumption and Dependencies
- Functional Requirements
- Acceptance Criteria

1.6. Assumptions and Dependencies

- Adequate computers to access the system are provided to the Head Office and the District Office.
- Stable network connectivity should be available.
- The system users should be properly trained and are familiar with the system.
- Physical application forms and documents should be scanned and saved as an image before uploading to the system. (The system will not provide a scanning facility)
- The system will enter, display, store and print information in English language only.

1.7. User Characteristics

Not Defined

1.8. General Constraints

Not Defined

2. Grade 5 Scholarships

2.2. Product Perspective

2.2.1. Process Steps

District Office

- The Member visits the District Office and submits a Grade 5 Scholarship request and hands in the relevant supporting documentation.
- The District Office System User will retrieve the Member Profile and initiate the Scholarship Request from the system.
- The system will validate the eligibility of the Member for the selected scholarship.
 - The age of the Membership should not be less than 36 months (this value is configurable).
 - The Scholarship Account should be remitted on the previous month.
 - The system will check if the Scholarship Account of the Member has been remitted continuously for the last 36 months (this value is configurable).
- The District Office System User will fill scholarship application entry in the system and upload supporting documents.
- Once the Scholarship Request is added into the system, the request record will be on “New” status.
- The Scholarship Request cannot be created if the Obtained Marks are less than the defined Cut-Off marks.
- If the request is incomplete or cannot be submitted for approval for some reason, the user will update the request as ‘Incomplete’ with a reason, which will send a SMS and an Email to the Member that the Scholarship request is marked as incomplete.
- If the scholarship request is submitted for approval, the system will validate the following.
 - The scholarship request is created within the defined cut-off date period from the exam date. If so, the normal process will be initiated for the scholarship request. If not, the system will consider the request is a deviation and the deviated process will be initiated for the request. which will create a separate Grade 5 Scholarship deviation list for approval.
- If the scholarship request record is to proceed with the Normal Process, the status of the request will be changed to ‘Submitted for Normal Approval’.
- If the scholarship request record is to proceed with the Deviated Process, the status of the request will be changed to ‘Submitted for Deviation Approval’.

Head Office

- The authorized Head Office user will search the Grade 5 scholarship requests that are submitted for the approval.
- For the scholarship requests that are in the Normal Process, the following functionalities will be carried out.
 - The Head Office User will search the scholarship requests that with the status “Submitted for Normal Approval”.
 - The Head Office User will create a Grade 5 Scholarship Normal Approval List.
 - The Head Office User will print the created Grade 5 Scholarship Normal Approval List to be given to the Board Meeting.
 - Once the Board Meeting is done, the Head Office User will recall the Grade 5 Scholarship Normal Approval List and update the approval.
 - Once the approval is given for a request, the status of the Scholarship Request record will be updated as ‘Approved’ and the details will be passed to the Finance Module for the disbursement of scholarship funds.
 - The Member will receive an SMS and Email mentioning that the requested scholarship has been approved.
- For the scholarship requests that are in the Deviated Process, the following functionalities will be carried out.
 - The Head Office User will search the scholarship requests that with the status “Submitted for Deviation Approval”.
 - The Head Office User will create a Grade 5 Scholarship Deviation Approval List.
 - The Head Office User will print the created Grade 5 Scholarship Deviation Approval List to be given to the Board Meeting.
 - Once the Board Meeting is done, the Head Office User will recall the Grade 5 Scholarship Deviation Approval List and update the approval.
 - Once the approval is given for a request, the status of the Scholarship Request record will be updated as ‘Approved’ and the details will be passed to the Finance Module for the disbursement of scholarship funds.
 - The Member will receive an SMS and Email mentioning that the requested scholarship has been approved.

Head Office – Finance Department

- Once the approved scholarship requests are received by the Finance Module, the necessary disbursement process of the scholarship funds will take place.

Grade 5 Scholarship Status Transformations (Normal Process) –

New -> Submitted for Normal Approval -> Added to Scholarship Normal Approval List -> Approved / Rejected

Grade 5 Scholarship Status Transformations (Deviated Process) –

New -> Submitted for Deviation Approval -> Added to Scholarship Deviation Approval List -> Approved / Rejected

2.2.2. List of Functions

- Function 1 - MMS01 – Create a Grade 5 Scholarship Request
- Function 2 - MMS02 – Searching the existing Grade 5 Scholarship Requests
- Function 3 - MMS03 - Viewing an existing Scholarship Request
- Function 4 – MMS04 - Editing an existing Grade 5 Scholarship Request
- Function 5 – MMS05 - Submit Grade 5 Scholarship Requests for Approval
- Function 6 – MMS06 - Approve/Reject Grade 5 Scholarship Requests from the Normal Process
- Function 7 – MMS07 - Create Grade 5 Scholarship Normal Approval List
- Function 8 – MMS08 - View Grade 5 Scholarship Normal Approval List
- Function 9- MMS09 - Delete a Grade 5 Scholarship Normal Approval List
- Function 10 – MMS10 - Print a Grade 5 Scholarship Normal Approval List
- Function 11 – MMS11 - Approve/Reject Grade 5 Scholarship Normal Requests
- Function 12 – MMS12 - Viewing a Grade 5 Scholarship Normal Approval List after processing
- Function 13 – MMS13 - Approve/Reject Grade 5 Scholarship Requests from the Deviation Process
- Function 14 – MMS14 - Create Grade 5 Scholarship Deviation Approval List
- Function 15 – MMS15 - View Grade 5 Scholarship Deviation Approval List
- Function 16- MMS16 - Delete a Grade 5 Scholarship Deviation Approval List
- Function 17 – MMS17 - Print a Grade 5 Scholarship Deviation Approval List
- Function 18 – MMS18 - Approve/Reject Grade 5 Scholarship Deviation Requests
- Function 19 – MMS19 - Viewing a Grade 5 Scholarship Deviation Approval List after processing
- Function 20 – MMS20 - Integrate Grade 5 Scholarships with Finance Module

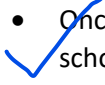

2.3. Functional Requirements

2.3.1. Creating a Grade 5 Scholarship Request

Function ID	MMS01
Function Name	Function 1 - MMS01 – Create a Grade 5 Scholarship Request
Actor	District Office System User

- The Member comes to the District Office and apply for a Grade 5 Scholarship.
- The Member can go to any District Office and apply for scholarships irrespective of the district of their working address.
- The District Office System User search and open the Member Profile from the system.
- The District Office System User selects the “Scholarship” option from the Actions Button and select “Grade 5 Scholarships” in the sub menu.
- The system will open the “Grade 5 Scholarship Request Entry”.
- The system will check the eligibility of the Member to apply for a Grade 5 Scholarship by validating the following,
 - The age of the Membership should not be less than 36 months (this value is configurable).
 - The Scholarship Account should be remitted on the previous month.
 - The system will check if the Scholarship Account of the Member has been remitted continuously for the last 36 months (this value is configurable).

If any of the above validations fail, there will be an error message displayed to the user with the reason and the Scholarship Request cannot be created.

- From the “Grade 5 Scholarship Request Entry”, the system user will enter the request information such as the Scholarship Request Date, Student information and Exam information. (Please refer the entry screen)
-  Once the user enters the ‘Year of the Exam’, the defined cut-off marks of the District for the selected Exam Year will be populated onto the screen. If the user changes the ‘School District’ value after the cut-off marks are populated, the ‘Year of the Exam’ field and the ‘District Cut-Off Marks’ value will be made blank.
-  Once the Examination Number is entered, the user will have the option to check if there are scholarship requests created for the same Examination Number, by clicking on the ‘Validate’ button next to the “Examination Number” field. This validation will be done when saving the entry as well. If the Examination Number is duplicating with another Scholarship Request created in the system, an error message – “Entered Examination Number is duplicating with another Scholarship Request” will be shown, and will not be allowed to save the record.
- The user must click on the “Refresh” button in the Fund Disbursement section to enable that section. **This section must be enabled to save the Scholarship Request record.** The functionality of this section is described below.
- The system user will have the facility to upload files against the request, such as the Birth Certificates and Exam Marks Sheets and other required documents. The mandatory document types to be uploaded for a Grade 5 Scholarship Request will be predefined and the system user must upload the files to the mandatory document types before submitting the request for approval. (The user still can save the request)
- The user can save the Grade 5 Scholarship Request once the data are entered. Once saved, the Scholarship Request record will have the “New” status. The user will have the facility to open a saved request record and edit if needed.

- Once the “Refresh” button is clicked in the Fund Disbursement section, there will be two options available for the user to select on how the scholarship funds need to be disbursed. They can either disburse the funds for the Member and to a minor account created for the student (only if it exists) or disburse the full amount to the minor account. The “Minor Account only” option will be available only if the student have a minor account opened. The disbursement breakdown will also be displayed (The breakdown is pre-configured and can be edited)

- The system will identify the minor account created for the selected student by checking the minor accounts created for the Member with the same Birth Certificate Number entered of the Grade 5 Scholarship Request Entry. Whether there is a Minor Account or not will be indicated in the “Minor Account Exists” field. This field can be edited.
- The total number of months the minor account was remitted will be displayed in the “Total months remitted for the minor account” field. This value is editable.
- If there is a minor account, the account number will be populated into the “Minor Account Number” field. This field can be edited.
- If there are no minor accounts created for the student, the “Minor Account Only” option will be disabled, and the full scholarship amount will be disbursed to the Member Only.

- If the Member has created the minor account for the student and have remitted Rs.250 (this amount is configurable) per month (doesn't need to be continuously), for several months until the last month of the exam, that number of months will be displayed in the "No. of months the Minor Account is remitted with the req. amount" field. If that value is equal or more than 36 months, the disbursement amount will be multiplied by 2 (the multiplication value and the eligible number of months are configurable).
 - Hence the total disbursement amount will be Rs 10,000 instead of Rs 5,000.
 - The breakdown amounts displayed in the screen for the Member and the Minor Account will also be doubled.
- When saving the system will validate the following criteria. If any of the following criteria is satisfied, the record cannot be saved. An error message with the reason will be displayed to the user.
 - Validate if an existing Scholarship Request is available in the system (with any Status) with the same Exam Number. (if so, the error message *"The Grade 5 Scholarship Request cannot be saved. There is another Scholarship Request with the same Examination Number"* will be shown)
 - Validate if the Member is **not** 'Active' on the last date of the selected exam (retrieved from the Grade 5 Scholarship Exam Master). (if not active, the error message *"The Grade 5 Scholarship Request cannot be saved. The Member is not Active during the selected Exam"* will be shown)
 - Validate if the value entered in the "Marks Obtained" field is equal or more than the value in the "District Cut-Off Mark". (If not, the error message *"The Grade 5 Scholarship Request*

cannot be saved. The exam marks obtained by the student is less than the district cut-off mark.” will be shown.)

- Validate if the age of the Membership is not less than 36 months (this value is configurable) from the month the exam is concluded. (If not, the error message *“The required continues Membership period does not comply (36 months)”* will be shown)
- The system will check if the Scholarship Account of the Member has been remitted continuously for the last 6 months from the month the exam is concluded (this value is configurable). (If not, the error message *“Scholarship deduction was not continuously remitted from Member for the specific period (6 months)”* will be shown)
- If the above validation is passed, the system will further validate the following criteria. If the following criteria is not satisfied for the Request record, the system will flag that the particular request to be handled through the deviation process. (The record will still be saved)
 - The Scholarship Request Date should be within the defined eligibility period from the last exam date. (This is defined in the Grade 5 Scholarship Exam Master)

List of Fields

Field Name	Description	Retrieved from	Editable	Mandatory
Request ID	The Grade 5 Scholarship Request ID is auto generated on save. On new requests it will display as 'NEW' since no ID is created yet. If an existing Grade 5 Scholarship Request is selected, the appropriate Request ID will display.	Auto generated	N	-
Status	The status of the record will appear here. Once saved the status will change to 'New', and will progress/can be changed to following, <i>New, Submitted for Normal Approval/Submitted for Deviation Approval, Added to Scholarship Normal Approval List, Added to Scholarship Deviation Approval List, Rejected, Approved, Inactive, Incomplete</i>	Auto generated / User select	N	-
Member Details	The Member ID, Member Surname with Initials and the NIC number of the Member will be displayed here.	Member Profile	N	-
Requested Date	The Grade 5 Scholarship requested date will be entered here by the user	User Input	Y	Y
Name of the Student	The Name of the student to be entered here	User Input	Y	Y

Birth Certificate Number	The Birth Certificate Number of the Student to be entered here	User Input	Y	Y
School of the Student	The school of the student to be entered here	User Input	Y	Y
School District	The district of the student's school to be selected from the dropdown list.	Retrieved from the District Master	Y	Y
Year of the Exam	The year of the exam to be selected from the dropdown list.	The Year of the Exam values from the Grade 5 Scholarship Exam Master	Y	Y
Examination Number	The examination number of the student to be entered here.	User Input	Y	Y
District Cut-Off Mark	The cut-off mark defined for the selected District and Year, in the Grade 5 Scholarship Exam Master.	Auto filled from the Grade 5 Scholarship Exam Master	N	-
Marks Obtained	The marks obtained by the student for the exam to be entered here.	User Input	Y	Y
Minor Accounts Exists	When Refresh button is clicked the system will validate if there is a minor account for the student and will display the result here.	Auto filled / User Select	Y	Y
No. of months the Minor Account is remitted with the req. amount	This will display the total number of months that the minor account was remitted by 250 rupees (this value is configurable) or more until the last month of the exam.	Auto filled / User Input	Y	Y
Fund Disbursement Options	The user will select if the funds to be sent to the Member and Minor Account or to the Minor Account only.	User select	Y	Y
Fund Disbursement Breakdown	The breakdown of the fund allocated to the Member and the Minor Account will be displayed here	Auto filled	N	-

Required Documents	A list of documents that are configured as required supporting documents for the Grade 5 Scholarship Request Entry will be displayed here. The mandatory documents are highlighted with an icon. The user can select a document clicking on the document name.	Supporting Documents for Applications Master	N	-
Uploaded Files	Once a document type is selected from the Required Documents section, already uploaded Files for the	User upload	Y	Y – for mandatory

	selected Required Document will be displayed. It will show the File Name, File Type and the Date and Time of the upload. Once the user clicks on the file name, the file will be downloaded.			required documents
--	---	--	--	--------------------

Available Buttons

Button Name	Function	Validation
Save	This will save the Grade 5 Scholarship Request record. A new Grade 5 Scholarship Request ID will be generated for the record.	Validate The Requested Date is not a future date. Validate if an existing Scholarship Request is not available in the system with the same Exam Number. Validate if the Member is 'Active' on the last date of the selected exam Validate that the age of the Membership should not be less than 36 months (this value is configurable). Validate if the Scholarship Account of the Member has been remitted continuously for the last 6 months (this value is configurable).
Submit	Once the Grade 5 Scholarship Request is finalized, the button is clicked. If the Request is NOT satisfying with the deviation criteria, the status of the Grade 5 Scholarship Request will be changed to "Submitted for Normal Approval" If the Request is satisfying with the deviation criteria, the status of the Grade 5 Scholarship Request will be changed to "Submitted for Deviation Approval" A user acknowledgement will be displayed since the Grade 5 Scholarship Request cannot be edited after submitting.	Check if all the mandatory fields are populated. Check the deviation criteria and set the status of the request accordingly.
Incomplete	If the Grade 5 Scholarship Request information is incomplete, the user will click on this button. The status of the request will be changes to "Incomplete".	

Validate	This will validate if there are other Grade 5 Scholarship records created in the system (with any Status) with the same Examination Number. If so an error will be displayed.	
Refresh	This will enable / Refresh the Fund Disbursement section on the entry. The system will check if the student has a minor account created by validating the entered Birth Certificate Number with the minor accounts created for the member and show the result in the Minor Account Exists field. The system will also check the number of months until the last month of the Exam the minor account is remitted with Rs.250 or more and show the month count in the "Total months remitted for the minor account" field.	
Add	This will open the file browser to select and upload a file. The selected file will be uploaded to the selected document type.	If the request record is already submitted, this button will not be available.
File Remove Button	For each uploaded file, there will be a delete button. Once clicked, the relevant file will be removed from the entry.	If the request record is already submitted, this button will not be available.

2.3.2. Searching the existing Death Donation Requests

Function ID	MMS02
Function Name	Function 2 - MMS02 - -- Searching the existing Grade 5 Scholarship Requests
Actor	District Office System User / Head Office System User

- The District Office System User can search for the created Grade 5 Scholarship Requests from the "Grade 5 Scholarship Requests List" entry.

- The “Grade 5 Scholarship Requests List” entry will display all the Grade 5 scholarship requests done within the system.
- There will be multiple filter options available on this screen.
 - Location – **This will be a multi-select dropdown. The user can select multiple locations from here.** If the logged in user has only access to the current district location, this field will be un-editable and the current location (the location the user has access to) will be auto selected. If the user has access to multiple locations, or if the user is a Head Office user, this **dropdown will be enabled to select ‘All’ locations or a specific location.** By default, for District Locations the current location will be selected and for Head Office, ‘All’ will be selected (depend on user access rights).
 - Year – **This will be a multi-select dropdown.** The user can select the Year of the Examination of the scholarship requests they want to search. The ‘Year’ dropdown field will have the Year of the Exam values populated from the Grade 5 Scholarship Exam Master.
 - Request Received On – This filter can be used to retrieve Scholarship Requests within a given date period. This dropdown will have,
 - All Days -Which will show all Scholarship Requests irrespective of the Requested Date.
 - This Month – Scholarship Requests received within the current month
 - This and last month – Scholarship Requests received within the current month and last month.
 - Date Period – Here the user can select a From Date and To Date. All Scholarship Requests received within the given date range will be retrieved.
 By default, ‘All Days’ will be selected.

- Status – **This will be a multi-select dropdown. The user can select multiple statuses from here.** This dropdown will have the following statuses,
 - New
 - Incomplete
 - Submitted for Normal Approval
 - Submitted for Deviation Approval
 - Added to Scholarship Normal Approval List
 - Added to Scholarship Deviation Approval List
 - Rejected
 - Approved
 - Inactive

By default, All statuses except, Rejected, Approved and Inactive will be displayed.

- The user will have a search option to further filter the Scholarship Requests retrieval. The search will be applied to the filtered records. The user can search based on Member name, Member number, NIC number or Examination Number. The search key entered by the user will be used to search through the Grade 5 Scholarship Requests created for Members with Members' Full Name, Name as in Payroll, Name with Initials, Member Number, the NIC Number fields, Student Name for the Scholarship and the Examination Number. Records with any similar matches will be retrieved.
- A Sort option will be available where the user can select different sort options from a dropdown. The following sort options will be available.
 - Requested Date – sort based on the requested date of the Scholarship Requests
 - Status – The Scholarship Requests will be sorted based on the status
 - Member ID – The Scholarship Requests will be sorted based on the Member IDs
 By default, "Requested Date" will be selected for sorting. There will be an option to select Ascending and Descending order of the sorted records. By default, this will be set to Ascending.
- Once the user clicks on the 'Retrieve' button, the Scholarship Requests with relevance to the entered filter and search parameters will be displayed.
- On the retrieved records, there will be icons to identify requests saved with a deviation criteria and also separate icons to indicate requests submitted for the normal process (request with the "Submitted for Normal Approval" status) and requests submitted for the deviated process (request with the "Submitted for Deviation Approval" status).
- To open a record to view, the user will have to click on the 'Member ID' in the record line.
- To edit, the user will have to click on the Edit icon. The Edit icon will only be visible if the record is not submitted and the logged in user has edit rights.

2.3.3. Viewing an existing Scholarship Request

Function ID	MMS03
Function Name	Function 3 - MMS03 - Viewing an existing Scholarship Request
Actor	District Office System User / Head Office System User

- To view, the user clicks on Member ID field of the correct Scholarship Request record from the Scholarship Requests List entry.
- The selected Scholarship Request record will open on the same screen as the Scholarship Request screen.
- The information will be populated but the user cannot edit any fields.
- If the Scholarship Request record is in the “New” status, and if the user has edit rights, there will be an Edit Button on the screen.
- If the Scholarship record is in “Incomplete” status, the reason will be displayed next to the status, and the Submit and the Incomplete buttons will be disabled. The user must go to Edit Mode, which will enable these buttons to proceed.

- When a saved Scholarship Request is opened that is flagged to follow the deviation process, the reason for the deviation will be displayed on the Scholarship Request Entry itself.

- The deviation will be due to the below reason,
 - The Scholarship Request Date should be within the defined eligibility period from the last exam date. (This is defined in the Grade 5 Scholarship Exam Master)

2.3.4. Edit Existing Grade 5 Scholarship Requests

Function ID	MMS04
Function Name	Function 4 – MMS04 - Editing an existing Grade 5 Scholarship Request
Actor	District Office System User

- The user can edit a Scholarship Request by,
 - Selecting the Edit option from the Scholarship Request List against an un-submitted record.
 - Open an un-submitted Scholarship Request and select the Edit Button.
- The Edit screen will be same as “Grade 5 Scholarship Request” screen, with all the fields editable.
- The authorized user can change the status of a record **within the following limitations from the View Mode.**

Current Status	Can change Status to
New	• Inactive (The user needs Inactive rights)
Incomplete	• New • Inactive (The user needs Inactive rights)
Submitted for Normal Approval	• New • Inactive (The user needs Inactive rights)
Submitted for Deviation Approval	• New • Inactive (The user needs Inactive rights)
Rejected	• Inactive (The user needs Inactive rights) • New
Inactive	• New

2.3.5. Submit Grade 5 Scholarship Requests for Approval

Function ID	MMS05
Function Name	Function 5 – MMS05 - Submit Grade 5 Scholarship Requests for Approval
Actor	District Office System User

- Once a saved request is opened in View Mode, the system user will have the facility to submit the request for approval.
- If the Scholarship Requests is **not** flagged to follow the deviated process, once submitted, the status of the request will be changed to “Submitted for Normal Approval” and will progress on the Normal process.
- If the Scholarship Requests is flagged to follow the deviated process, once submitted, the status of the request will be changed to “Submitted for Deviation Approval” and will progress on the Deviated process.
- Once submitted (in whatever the case above), these records cannot be edited. But if the logged in user has the rights to change the status of the request, they can change the status from ‘Submitted for Normal Approval’/‘Submitted for Deviation Approval’ to ‘New’.
- Before submitting the request, the user will validate if all the necessary information is added. If not, or if there is a concern that the request cannot be submitted, the user will select “Incomplete” option.
- The system will ask for a reason for this through a popup screen.

- Once the reason is added, the Scholarship Request status will be updated as “incomplete” and will send an SMS and Email to the Member indicating that the scholarship request is incomplete with the added reason.

2.3.6. Approve / Reject Grade 5 Scholarship Requests from the Normal Process

Function ID	MMS06
Function Name	Function 6 – MMS06 - Approve/Reject Grade 5 Scholarship Requests from the Normal Process
Actor	District Office System User

The following functionality explains the process of the Grade 5 Scholarship Requests that are on the Normal Process. (Requests that do not have any of the deviation criteria)

2.3.6.1. Create Grade 5 Scholarship Normal Approval List

- Once the Grade 5 Scholarship Requests are submitted and are in the ‘Submitted for Normal Approval’ status, the relevant user at the Head Office Location should be able to access and view them.
- The Head Office User will retrieve the submitted Grade 5 Scholarship Requests and select them as bulk and create a Grade 5 Scholarship Normal Approval List that will be presented on the Board Meeting. Once a Grade 5 Scholarship Request is added to a Grade 5 Scholarship Normal Approval List, the status of the request record changes to “Added to Scholarship Normal Approval List”.

The User Creates a Grade 5 Scholarship Normal Approval List

Function ID	MMS07
Function Name	Function 7 – MMS07 - Create Grade 5 Scholarship Normal Approval List
Actor	Head Office System User

- The Head Office User opens the “Grade 5 Scholarship Requests List” entry.
- The user will have access to select “All” locations from the Location. The User will filter the Status as “Submitted for Normal Approval” and/or “Rejected”. (Rejected are previous rejections when approving)
- The user can click on the ‘Member ID’ of a Grade 5 Scholarship Request record to open it in view mode.
- By selecting the “select all” check box, the user will select all the retrieved records as bulk. **Only the Grade 5 Scholarship Requests with “Submitted for Normal Approval”, “Submitted for Deviation Approval” and “Rejected” statuses can be selected from the check box.**
- A new button called “Create Grade 5 Scholarship Normal Approval List” will be available for the user who has rights to create a Grade 5 Scholarship Approval List.
- The “Create Grade 5 Scholarship Normal Approval List” button will be displayed only if the requests with the “Submitted for Normal Approval” status or **normal** grade 5 scholarship requests with the “Rejected” status is selected.

- Once the user clicks on the “Create Grade 5 Scholarship Normal Approval List” button, a popup will display to select the Board Meeting Record. The Board Meeting records will be retrieved from the created Board Meetings in the Board Meetings Entry.
- Once the user saves the details, The selected Grade 5 Scholarship Records will be attached to the selected Board Meeting record. The status of the selected Grade 5 Scholarship Requests will change to “Added to Grade 5 Scholarship Normal Approval List”.
- The system will confirm to the user that the Grade 5 Scholarship Normal Approval List is created for the selected records. And if the user wishes to view the Grade 5 Scholarship Normal Approval List record.

“The Grade 5 Scholarship Normal Approval List for 3 requests has been created. Do you want to view the list?”

There will be Yes and No options for the user to select. If the user selects No, the popups will close. If the user selects Yes, the Grade 5 Scholarship Normal Approval Lists entry will be opened.

Viewing the created Grade 5 Scholarship Normal Approval List

Function ID	MMS08
Function Name	Function 8 – MMS08 - View Grade 5 Scholarship Normal Approval List
Actor	Head Office System User

- The user opens the “Grade 5 Scholarship Normal Approval Lists” Entry.
- The user can retrieve the created Grade 5 Scholarship Normal Approval Lists by selecting All or selecting a Board Meeting date period.

- Once the user clicks on the 'Retrieve' button, the Grade 5 Scholarship Normal approval lists are retrieved, the user can select a record and retrieve the requests within the Grade 5 Scholarship Normal approval list record by clicking on the 'Retrieve Grade 5 Scholarship Requests' button.
- Once the requests are retrieved, the user has the option of printing and or approving/rejecting the Grade 5 Scholarship request.
- To open a Grade 5 Scholarship request to view, the user can click on the 'Member ID' field of a record.

Deleting a Grade 5 Scholarship Normal Approval List

Function ID	MMS09
Function Name	Function 9- MMS09 - Delete a Grade 5 Scholarship Normal Approval List
Actor	Head Office System User

- When the authorized user who has the delete privileges for Grade 5 Scholarship Normal Approval Lists opens this entry, a delete option will be available to remove a Grade 5 Scholarship Normal Approval List record.

- They will see a “Delete List” button, when clicked, the system will ask confirmation, - *“Do you want to delete the selected Grade 5 Scholarship Normal Approval List?”*

2.3.6.2. Printing the Grade 5 Scholarship Normal Approval List for the Board Meeting

Function ID	MMS10
Function Name	Function 10 – MMS10 - Print a Grade 5 Scholarship Normal Approval List
Actor	Head Office System User

- To print a Grade 5 Scholarship Normal Approval List, the user will open the Grade 5 Scholarship Normal Approval List Entry and will retrieve the required Grade 5 Scholarship Normal Approval List record by entering the Board Meeting date period or selecting ‘All’.
- Once the user clicks on the Retrieve button, the Grade 5 Scholarship Normal approval list records are retrieved based on the selected filter.
- The user will select the required Grade 5 Scholarship Normal Approval List record and click on the ‘Retrieve Grade 5 Scholarship Requests’ button to retrieve the list of requests assigned to the Grade 5 Scholarship Normal Approval List record.
- To print the selected Grade 5 Scholarship requests list, the user will click on the ‘Print’ button.

- This will print the 'Grade 5 Scholarship Normal Request List for Board Approval' report. The report layout is illustrated in the Annex section.

2.3.6.3. Approve/Reject Grade 5 Scholarship Normal Requests

Function ID	MMS11
Function Name	Function 11 – MMS11 - Approve/Reject Grade 5 Scholarship Normal Requests
Actor	Head Office System User

- To approve / reject Grade 5 Scholarship Normal requests in a Grade 5 Scholarship Normal Approval List, the user will open the Grade 5 Scholarship Normal Approval List Entry and will retrieve the required Grade 5 Scholarship Normal Approval List record by entering the Board Meeting date period or selecting 'All'.
- Once the user clicks on the Retrieve button, the Grade 5 Scholarship Normal approval list records are retrieved based on the selected filter.
- The user will select the required Grade 5 Scholarship Normal Approval List record and click on the 'Retrieve Grade 5 Scholarship Requests' button to retrieve the list of requests assigned to the Grade 5 Scholarship Normal Approval List record.
- All retrieve Grade 5 Scholarship request records will be selected as 'Approve' by default. If there is a request that needs to be rejected, the user will have to select 'Reject' from the dropdown.
- If the Reject option is selected for a request, there will be a field activated to enter the reason for the rejection. **This is mandatory filed, where the user must fill for all rejected requests for them to proceed with the approval process.**

- Once the user completes marking the rejected requests, they will click on the “Proceed” button.
- This will open a confirmation popup screen for the user to confirm the details and also to add a comment if needed.
- This popup will show the Board Meeting Date as per the setup and also gives the facility to select the Actual Board Meeting Date, in case the meeting was postponed to another date. The Actual Board Meeting Date will also be a selection, with the values from the Board Meeting records created. By default, the Actual Board Meeting Date will be the same date as the Board Meeting Date.
- A facility for upload files will be available, this facility can be used to upload a scanned image of the approved ‘Grade 5 Scholarship Normal Request List for Board Approval’ report.

- This popup will also display a summary of the requests in the list. It will show the total number of requests, the number of requests selected as approved and the number of requests to be rejected.
- If the user is satisfied with the details, they can click on the “Process” button to proceed. This will change the status of the Grade 5 Scholarship Requests to ‘Approved’ or ‘Rejected’ depend on what option is selected.
- **If a Grade 5 Scholarship Request is rejected, the status of the request will change to “Rejected”.**
An SMS message will be sent to the Mobile Number of the Member and an Email will be sent to the Email Address of the Member, indicating that their Grade 5 Scholarship Request is rejected with the entered reason.
- For the Grade 5 Scholarship Requests that are approved, an SMS message will be sent to the Mobile Number of the Member and an Email will be sent to the Email Address of the Member, indicating that their Grade 5 Scholarship Request is approved, and the necessary fund disbursement is underway.
- The details of the approved Grade 5 Scholarship Request will be passed to the Finance module to start processing on the disbursement of funds. This is explained in the section 2.2.8

2.3.6.4. Viewing a Grade 5 Scholarship Normal Approval List after processing

- If the user retrieves a Grade 5 Scholarship Normal Approval List record that is already processed, it will be opened in un-editable mode. There will not be options to Print or Process the requests.
- The name of the user who processed the list along with the date and time will be displayed.

2.3.7. Approve / Reject Grade 5 Scholarship Requests from the Deviated Process

Function ID	MMS13
Function Name	Function 13 – MMS13 - Approve/Reject Grade 5 Scholarship Requests from the Deviation Process
Actor	District Office System User

The following functionality explains the process of the Grade 5 Scholarship Requests that are on the Deviated Process. (Requests that have any of the deviation criteria)

2.3.7.1. Create Grade 5 Scholarship Deviation Approval List

- Once the Grade 5 Scholarship Requests are submitted and are in the ‘Submitted for Deviation Approval’ status, the relevant user at the Head Office Location should be able to access and view them.
- The Head Office User will retrieve the submitted Grade 5 Scholarship Requests and select them as bulk and create a Grade 5 Scholarship Deviation Approval List that will be presented on the Board Meeting. Once a Grade 5 Scholarship Request is added to a Grade 5 Scholarship Deviation Approval List, the status of the request record changes to “Added to Scholarship Deviation Approval List”.

The User Creates a Grade 5 Scholarship Deviation Approval List

Function ID	MMS14
Function Name	Function 14 – MMS14 - Create Grade 5 Scholarship Deviation Approval List
Actor	Head Office System User

- The Head Office User opens the “Scholarship Requests List” entry.
- The user will have access to select “All” locations from the Location. The User will filter the Status as “Submitted for Deviation Approval” and/or “Rejected”. (Rejected are previous rejections when approving)

- The “Create Grade 5 Scholarship Deviation Approval List” button will be displayed only if the requests with the “Submitted for Deviation Approval” status or **Deviated** grade 5 scholarship requests with the “Rejected” status is selected.
- Once the user clicks on the “Create Grade 5 Scholarship Deviation Approval List” button, a popup will display to select the Board Meeting Record. The Board Meeting records will be retrieved from the created Board Meetings in the Board Meetings Entry.

- Once the user saves the details, The selected Grade 5 Scholarship Records will be attached to the selected Board Meeting record. The status of the selected Grade 5 Scholarship Requests will change to “Added to Grade 5 Scholarship Deviation Approval List”.
- The system will confirm to the user that the Grade 5 Scholarship Deviation Approval List is created for the selected records. And if the user wishes to view the Grade 5 Scholarship Deviation Approval List record.

“The Grade 5 Scholarship Deviation Approval List for 2 requests has been created. Do you want to view the list?”

There will be Yes and No options for the user to select. If the user selects No, the popups will close. If the user selects Yes, the Grade 5 Scholarship Deviation Approval Lists entry will be opened.

Viewing the created Grade 5 Scholarship Deviation Approval List

Function ID	MMS15
Function Name	Function 15 – MMS15 - View Grade 5 Scholarship Deviation Approval List
Actor	Head Office System User

- The user opens the “Grade 5 Scholarship Deviation Approval Lists” Entry.
- The user can retrieve the created Grade 5 Scholarship Deviation Approval Lists by selecting All or selecting a Board Meeting date period.
- Once the user clicks on the ‘Retrieve’ button, the Grade 5 Scholarship Deviation approval lists are retrieved, the user can select a record and retrieve the requests within the Grade 5 Scholarship Deviation approval list record by clicking on the ‘Retrieve Grade 5 Scholarship Requests’ button.
- Once the requests are retrieved, the user has the option of printing and or approving/rejecting the Grade 5 Scholarship request.
- To open a Grade 5 Scholarship request to view, the user can click on the ‘Member ID’ field of a record.

Deleting a Grade 5 Scholarship Deviation Approval List

Function ID	MMS16
Function Name	Function 16- MMS16 - Delete a Grade 5 Scholarship Deviation Approval List
Actor	Head Office System User

- When the authorized user who has the delete privileges for Grade 5 Scholarship Deviation Approval Lists opens this entry, a delete option will be available to remove a Grade 5 Scholarship Deviation Approval List record.

- They will see a “Delete List” button, when clicked, the system will ask confirmation, - *“Do you want to delete the selected Grade 5 Scholarship Deviation Approval List?”*
- If the user confirms, the Grade 5 Scholarship Deviation Approval List will be deleted, and all the Scholarship Requests attached to the list will be rolled back to the “Submitted for Deviation Approval” status or “Rejected” status depend on what status it was originally.

2.3.7.2. Printing the Grade 5 Scholarship Deviation Approval List for the Board Meeting

Function ID	MMS17
Function Name	Function 17 – MMS17 - Print a Grade 5 Scholarship Deviation Approval List
Actor	Head Office System User

- To print a Grade 5 Scholarship Deviation Approval List, the user will open the Grade 5 Scholarship Deviation Approval List Entry and will retrieve the required Grade 5 Scholarship Deviation Approval List record by entering the Board Meeting date period or selecting ‘All’.
- Once the user clicks on the Retrieve button, the Grade 5 Scholarship Deviation approval list records are retrieved based on the selected filter.
- The user will select the required Grade 5 Scholarship Deviation Approval List record and click on the ‘Retrieve Grade 5 Scholarship Requests’ button to retrieve the list of requests assigned to the Grade 5 Scholarship Deviation Approval List record.
- To print the selected Grade 5 Scholarship requests list, the user will click on the ‘Print’ button.
- This will print the ‘Grade 5 Scholarship Deviation Request List for Board Approval’ report. The report layout is illustrated in the Annex section.

2.3.7.3. Approve/Reject Grade 5 Scholarship Deviation Requests

Function ID	MMS18
Function Name	Function 18 – MMS18 - Approve/Reject Grade 5 Scholarship Deviation Requests
Actor	Head Office System User

- To approve / reject Grade 5 Scholarship Deviation requests in a Grade 5 Scholarship Deviation Approval List, the user will open the Grade 5 Scholarship Deviation Approval List Entry and will retrieve the required Grade 5 Scholarship Deviation Approval List record by entering the Board Meeting date period or selecting 'All'.
- Once the user clicks on the Retrieve button, the Grade 5 Scholarship Deviation approval list records are retrieved based on the selected filter.
- The user will select the required Grade 5 Scholarship Deviation Approval List record and click on the 'Retrieve Grade 5 Scholarship Requests' button to retrieve the list of requests assigned to the Grade 5 Scholarship Deviation Approval List record.
- All retrieve Grade 5 Scholarship request records will be selected as 'Approve' by default. If there is a request that needs to be rejected, the user will have to select 'Reject' from the dropdown.
- If the Reject option is selected for a request, there will be a field activated to enter the reason for the rejection. **This is mandatory filed, where the user must fill for all rejected requests for them to proceed with the approval process.**

- Once the user completes marking the rejected requests, they will click on the “Proceed” button.
- This will open a confirmation popup screen for the user to confirm the details and also to add a comment if needed.
- This popup will show the Board Meeting Date as per the setup and also gives the facility to select the Actual Board Meeting Date, in case the meeting was postponed to another date. The Actual Board Meeting Date will also be a selection, with the values from the Board Meeting records created. By default, the Actual Board Meeting Date will be the same date as the Board Meeting Date.
- A facility for upload files will be available, this facility can be used to upload a scanned image of the approved ‘Grade 5 Scholarship Deviation Request List for Board Approval’ report.

- This popup will also display a summary of the requests in the list. It will show the total number of requests, the number of requests selected as approved and the number of requests to be rejected.
- If the user is satisfied with the details, they can click on the “Process” button to proceed. This will change the status of the Grade 5 Scholarship Requests to ‘Approved’ or ‘Rejected’ depend on what option is selected.
- **If a Grade 5 Scholarship Request is rejected, the status of the request will change to “Rejected”.**
An SMS message will be sent to the Mobile Number of the Member and an Email will be sent to the Email Address of the Member, indicating that their Grade 5 Scholarship Request is rejected with the entered reason.
- For the Grade 5 Scholarship Requests that are approved, an SMS message will be sent to the Mobile Number of the Member and an Email will be sent to the Email Address of the Member, indicating that their Grade 5 Scholarship Request is approved, and the necessary fund disbursement is underway.
- The details of the approved Grade 5 Scholarship Request will be passed to the Finance module to start processing on the disbursement of funds. This is explained in the section 2.2.8

2.3.7.4. Viewing a Grade 5 Scholarship Deviation Approval List after processing

Function ID	MMS19
Function Name	Function 19 – MMS19 - Viewing a Grade 5 Scholarship Deviation Approval List after processing
Actor	Head Office System User

- If the user retrieves a Grade 5 Scholarship Deviation Approval List record that is already processed, it will be opened in un-editable mode. There will not be options to Print or Process the requests.
- The name of the user who processed the list along with the date and time will be displayed.

2.3.8. Integrate the Grade 5 Scholarship Approvals with Finance Module

Function ID	MMS20
Function Name	Function 20 – MMS20 - Integrate Grade 5 Scholarships with Finance Module
Actor	System

- Once the above mentioned, Grade 5 Scholarship approval process is completed, the system will send the details of the approved Scholarships to the Finance Module to proceed with their activities.
- The data in this integration will be sent through APIs.
- **Once the funds are disbursed for the Grade 5 Scholarship, the Grade 5 Scholarship record will be made 'Inactive'.**

3. University Scholarships

3.2. Product Perspective

3.2.1. Process Steps

Applying for a University Scholarship

District Office / Head Office

- The Member/ Student visits the District Office and submit the necessary application and supporting documents.
- The District Office System User will retrieve the Member Profile and initiate the University Scholarship Request from the system.
- The system will validate the eligibility of the Member for the selected scholarship.
 - The Member was active during the last date of the exam.
 - The age of the Membership should not be less than 5 years (this value is configurable).
 - The Scholarship Account should be remitted on the previous month.
 - The system will check if the Scholarship Account of the Member has been continuously remitted for the 3 years (this value is configurable).
- The District Office System User will fill the scholarship application entry in the system and upload supporting documents.
- Once the Scholarship Request is added into the system, the request record will be on “New” status.
- If the request is incomplete or cannot be submitted for approval for some reason, the user will update the request as ‘Incomplete’ with a reason, which will send a SMS to the Member and the Student and an Email to the Member that the Scholarship request is marked as incomplete.
- If the scholarship request is submitted for approval, the status of the request will be changed to “Submitted for Committee Approval”.
- the system will validate the following.
 - The scholarship request is created within the defined cut-off date period from the exam date. If so, the normal process will be initiated for the scholarship request. If not, the system will consider the request is a deviation and the deviated process will be initiated for the request. which will create a separate University Scholarship deviation list for approval.
- If the scholarship request record is to proceed with the Normal Process, the status of the request will be changed to ‘Submitted for Normal Approval’.
- If the scholarship request record is to proceed with the Deviated Process, the status of the request will be changed to ‘Submitted for Deviation Approval’.

Head Office

- The authorized Head Office user from the University Scholarship Committee will search the University scholarship requests that are submitted for the committee approval.
- They will validate the scholarship request and will have the option to Reject or Approve to send it for Board Approval. If rejected, the Member and the Student will be notified through SMS and Email.
- Once the approval is given by the University Scholarship Committee to a Scholarship Request, the system will validate the following.
 - The scholarship request is created within the defined cut-off date period from the exam date. If so, the normal Board Approval process will be initiated for the scholarship request. If not, the system will consider the request is a deviation and the deviated Board Approval process will be initiated for the request. which will create a separate University Scholarship deviation list for Board approval.
 - If the scholarship request record is to proceed with the Normal Process, the status of the request will be changed to 'Submitted for Normal Board Approval'.
 - If the scholarship request record is to proceed with the Deviated Process, the status of the request will be changed to 'Submitted for Deviation Board Approval'.
- To send the Scholarship Requests for Board Approval, an Authorized User will search the University Scholarship request that are approved from the University Scholarship Committee.
- For the scholarship requests that are in the Normal Process, the following functionalities will be carried out.
 - The Head Office User will search the scholarship requests that with the status "Submitted for Normal Board Approval".
 - The Head Office User will create a University Scholarship Normal Approval List.
 - The Head Office User will print the created University Scholarship Normal Approval List to be given to the Board Meeting.
 - Once the Board Meeting is done, the Head Office User will recall the University Scholarship Normal Approval List and update the approval.
 - Once the approval is given for a request, the status of the Scholarship Request record will be updated as 'Approved'.
 - The Member and the Student will receive an SMS and Email mentioning that the requested scholarship has been approved.
- For the scholarship requests that are in the Deviated Process, the following functionalities will be carried out.
 - The Head Office User will search the scholarship requests that with the status "Submitted for Deviation Board Approval".
 - The Head Office User will create a University Scholarship Deviation Approval List.
 - The Head Office User will print the created University Scholarship Deviation Approval List to be given to the Board Meeting.
 - Once the Board Meeting is done, the Head Office User will recall the University Scholarship Deviation Approval List and update the approval.

- Once the approval is given for a request, the status of the Scholarship Request record will be updated as 'Approved'.
- The Member and the Student will receive an SMS and Email mentioning that the requested scholarship has been approved.

Applying for a University Scholarship Disbursement

Head Office

- The student will send the required properly filled application and supporting documents to the Head Office.
- The System User will search and open the approved University Scholarship for the student.
- The System User will create a Scholarship Fund Request against the Scholarship and upload the required supporting documents.
- Once the Scholarship Fund Request is added into the system, the request record will be on "New" status.
- Once the scholarship fund request is submitted for approval, the status of the request will be changed to "Submitted for Approval".
- The authorized user will search and open the Scholarship Fund Requests that are submitted for approval.
- The authorized user will validate the information in the Scholarship Fund Request and either Reject or Approve it.
 - If rejected, the Student and the Member will be notified through SMS and Email with the reason for rejection.
 - If approved, the necessary disbursement information will be passed on to the Finance Module to proceed with the required action. The Student and the Member will be notified through SMS and Email that the disbursement was approved.

Head Office – Finance Department

- Once the approved Scholarship Fund Requests are received by the Finance Module, the necessary disbursement process of the scholarship funds will take place.

University Scholarship Status Transformations (Normal Process) –

New -> Submitted for Committee Approval -> Submitted for Normal Board Approval -> Added to Normal Board Approval List -> Approved / Rejected

University Scholarship Status Transformations (Deviated Process) –

New -> Submitted for Committee Approval -> Submitted for Deviation Board Approval -> Added to Deviation Board Approval List -> Approved / Rejected

University Scholarship Disbursement Status Transformations –

New -> Submitted for Approval -> Approved / Rejected

3.2.2. List of Functions

Function 21 – MMS21 – Create a University Scholarship Request
Function 22 – MMS22 – Searching the existing University Scholarship Requests
Function 23 – MMS23 - Viewing an existing University Scholarship Request
Function 24 – MMS24 - Editing an existing “un-submitted” University Scholarship Request
Function 25 – MMS25 - Submit University Scholarships for Approval
Function 26 – MMS26 – Committee Approval for the University Scholarships
Function 27 – MMS27 – Board Approve/Reject University Scholarships from the Normal Process
Function 28 – MMS28 - Create University Scholarship Normal Approval List
Function 29 – MMS29 - View University Scholarship Normal Approval List
Function 30- MMS30 - Delete a University Scholarship Normal Approval List
Function 31 – MMS31 - Print University Scholarship Normal Approval List
Function 32 – MMS32 - Approve/Reject University Scholarship Normal Requests
Function 33 – MMS33 - Viewing a University Scholarship Normal Approval List after processing
Function 34 – MMS34 – Board Approve/Reject University Scholarships from the Deviated Process
Function 35 – MMS35 - Create University Scholarship Deviation Approval List
Function 36 – MMS36 - View University Scholarship Deviation Approval List
Function 37- MMS37 - Delete a University Scholarship Deviation Approval List
Function 38 – MMS38 - Print University Scholarship Deviation Approval List
Function 39 – MMS39 - Approve/Reject University Scholarship Deviation Requests
Function 40 – MMS40 - Viewing a University Scholarship Deviation Approval List after processing
Function 41 – MMS41 - Editing an existing “Approved” University Scholarship Record
Function 42 – MMS42 – Create a University Scholarship Disbursement Request
Function 43 – MMS43 – Searching the existing University Scholarship Fund Requests
Function 44 – MMS44 - Viewing an existing University Scholarship Fund Request
Function 45 – MMS45 - Editing an existing “un-submitted” University Scholarship Fund Request

3.3. Functional Requirements

3.3.1. Creating a University Scholarship Request

Function ID	MMS01
Function Name	Function 21 – MMS21 – Create a University Scholarship Request
Actor	District Office System User

- The Member or the Student comes to the District Office and apply for a University Scholarship.
- The Member or the student can go to any District Office and apply for scholarships irrespective of the district of their working address.
- The District Office System User search and open the Member Profile from the system.
- The District Office System User selects the “Scholarship” option from the Actions Button and select “University Scholarships” in the sub menu.
- The system will open the “University Scholarship Entry”.
- From the “University Scholarship Entry”, the system user will enter the request information such as the Scholarship Request Date, Student information and University information. (Please refer the entry screen)
- Once the Examination Number is entered, the user will have the option to check if there are scholarship requests created for the same Examination Number, by clicking on the ‘Validate’ button next to the “Examination Number” field. This validation will be done when saving the entry as well. If the Examination Number is duplicating with another Scholarship Request created in the system,

an error message – “Entered Examination Number is duplicating with another Scholarship Request” will be shown, and will not be allowed to save the record.

- The selected University will be selected from a dropdown and the applicable study programs for the selected university, which are predefined will be available for selection. The duration of the study program will also be displayed automatically.
- When the user clicks on the “Refresh” button in the Minor Account Status section, the system will identify the minor account created for the selected student by checking the minor accounts created for the Member with the same Birth Certificate Number entered of the University Scholarship Entry. Whether there is a Minor Account or not will be indicated in the “Has a Minor Account” field. This field can be edited.
- The total number of months the minor account was remitted will be displayed in the “Total months remitted for the minor account” field. This value is editable.
- The system user will have the facility to upload files against the request, such as the Birth Certificates and Exam Marks Sheets and other required documents. The mandatory document types to be uploaded for a University Scholarship Request will be predefined and the system user must upload the files to the mandatory document types before submitting the request for approval. (The user still can save the request)
- The user can save the University Scholarship Request once the data are entered. Once saved, the Scholarship Request record will have the “New” status. The user will have the facility to open a saved request record and edit if needed.
- When saving, if the value in the “Has a Minor Account” field is not set, the “Refresh” button functionality will be initiated automatically before saving.

- If the Member has applied for University Scholarships previously, the number of scholarships will be displayed in the “Total University Scholarships” field. If the value is more than ‘0’, there will be a ‘View Details’ option. When clicked, a list of scholarships applied by the Member will be displayed,
- When the ‘View’ link is clicked, the relevant scholarship record will be opened from the Scholarship Entry.
- When saving the new scholarship, the system will validate the following criteria. If any of the following criteria is satisfied, the record cannot be saved. An error message with the reason will be displayed to the user.
 - Validate if an existing Scholarship Request is available in the system (with any Status) with the same Exam Number. (if so, the error message *“The University Scholarship Request cannot be saved. There is another Scholarship Request with the same Examination Number”* will be shown)
 - Validate if the Member is **not** ‘Active’ on the last date of the selected exam (retrieved from the University Scholarship Exam Master). (if not active, the error message *“The University Scholarship Request cannot be saved. The Member is not Active during the selected Exam”* will be shown)
 - Validate if the age of the Membership is less than 5 years (this value is configurable). (If so, the error message *“Required continues Membership period does not comply (5 years)”* will be shown)
 - Validate if the Scholarship Account of the Member has been remitted for at least 36 months (this value is configurable) within the last 5 years from the last month of the Exam. (If not, the error message, *“Scholarship amount was not continuously remitted from the Member for the specified period”* will be shown)
 - Validate if the remaining months in the last 5 years from the last month of the exam, other than the months that the Scholarship amounts are remitted, are settled by through other

means. (If not, the error message, *“The Scholarship Amounts were not settled for some months”* will be shown)

- Validate If another University Scholarship was approved for the Member within a year from the last month of the selected Exam for the same academic year. (If so, the error message, *“Another University Scholarship was approved for the Member within a year”* will be shown)
- If the above validation is passed, the system will further validate the following criteria. If the following criteria is not satisfied for the Request record, the system will flag that the particular request to be handled through the deviation process. (The record will still be saved)
 - The Scholarship Request Date should be within the defined eligibility period from the last exam date. (This is defined in the University Scholarship Exam Master)

List of Fields

Field Name	Description	Retrieved from	Editable	Mandatory
Request ID	The University Scholarship ID is auto generated on save. On new requests it will display as 'NEW' since no ID is created yet. If an existing University Scholarship is selected, the appropriate Scholarship ID will display.	Auto generated	N	-

Uploaded Files	Once a document type is selected from the Required Documents section, already uploaded Files for the selected Required Document will be displayed. It will show the File Name, File Type and the Date and Time	User upload	Y	Y – for mandatory required documents

	of the upload. Once the user clicks on the file name, the file will be downloaded.			
--	---	--	--	--

Available Buttons

Button Name	Function	Validation
Save	This will save the University Scholarship record. A new Scholarship ID will be generated for the record.	Validate The Requested Date is not a future date. Validate if an existing Scholarship Request is not available in the system with the same Exam Number. Validate if the Member is 'Active' on the last date of the selected exam Validate that the age of the Membership should not be less than 5 years (this value is configurable). Validate if the Scholarship Account of the Member has been remitted for at least 36 months within 5 years from the Exam Date. Validate if the non-remitted months for the Scholarship Account is settled within 5 years from the Exam Date. Validate If another University Scholarship was approved for the Member within a year from the last month of the selected Exam for the same academic year
Submit	Once the University Scholarship is finalized, the button is clicked. The status of the record will be changed to "Submitted for Committee Approval" If the Request is satisfying with the deviation criteria, a flag will be updated that the scholarship record is in the deviation process. A user acknowledgement will be displayed since the Scholarship Request cannot be edited after submitting.	Check if all the mandatory fields are populated. Check the deviation criteria and set the deviation flag accordingly.
Incomplete	If the Scholarship Request information is incomplete, the user will click on this button.	

	The status of the request will be changes to “Incomplete”.	
Validate	This will validate if there are other University Scholarship records created in the system (with any Status) with the same Examination Number. If so, an error will be displayed.	
Refresh	This will enable / Refresh the Minor Account Status section on the entry. The system will check if the student has a minor account created by validating the entered Birth Certificate Number with the minor accounts created for the member and show the result in the “Has a Minor Account” field. The system will also check the number of months until the last month of the Exam the minor account is remitted with Rs.250 or more and show the month count in the “Total months remitted for the minor account” field.	
Add	This will open the file browser to select and upload a file. The selected file will be uploaded to the selected document type.	If the request record is already submitted, this button will not be available.
File Remove Button	For each uploaded file, there will be a delete button. Once clicked, the relevant file will be removed from the entry.	If the request record is already submitted, this button will not be available.

3.3.2. Searching the existing University Scholarships

Function ID	MMS22
Function Name	Function 22 – MMS22 – Searching the existing University Scholarship Requests
Actor	District Office System User / Head Office System User

- The District Office System User can search for the created University Scholarship Requests from the “University Scholarship List” entry.

- The “University Scholarship List” entry will display all the University scholarships done within the system.
- There will be multiple filter options available on this screen.
 - Location – **This will be a multi-select dropdown. The user can select multiple locations from here.** If the logged in user has only access to the current district location, this field will be un-editable and the current location (the location the user has access to) will be auto selected. If the user has access to multiple locations, or if the user is a Head Office user, this **dropdown will be enabled to select ‘All’ locations or a specific location.** By default, for District Locations the current location will be selected and for Head Office, ‘All’ will be selected (depend on user access rights).
 - Request Received On – This filter can be used to retrieve Scholarship Requests within a given date period. This dropdown will have,
 - All Days -Which will show all Scholarship Requests irrespective of the Requested Date.
 - This Month – Scholarship Requests received within the current month
 - This and last month – Scholarship Requests received within the current month and last month.
 - Date Period – Here the user can select a From Date and To Date. All Scholarship Requests received within the given date range will be retrieved.
 By default, ‘All Days’ will be selected.

- Status – **This will be a multi-select dropdown. The user can select multiple statuses from here.** This dropdown will have the following statuses,

- New
- Incomplete
- Submitted for Committee Approval
- Submitted for Normal Board Approval
- Submitted for Deviation Board Approval
- Added to Normal Board Approval List
- Added to Deviation Board Approval List
- Rejected
- Approved
- Inactive

By default, All statuses except, Rejected, Approved and Inactive will be displayed.

- The user will have a search option to further filter the Scholarship Requests retrieval. The search will be applied to the filtered records. The user can search based on Member name, Member number, Student Name, Student NIC number, Examination Number or Scholarship ID. The search key entered by the user will be used to search through the University Scholarship Requests created in the system. Records with any similar matches will be retrieved.
- A Sort option will be available where the user can select different sort options from a dropdown. The following sort options will be available.
 - Requested Date – sort based on the requested date of the Scholarship Requests
 - Status – The Scholarship Requests will be sorted based on the status
 - Member ID – The Scholarship Requests will be sorted based on the Member IDs
 - Scholarship ID – The Scholarship Request will be sorted based on Scholarship IDs

By default, “Requested Date” will be selected for sorting. There will be an option to select Ascending and Descending order of the sorted records. By default, this will be set to Ascending.
- Once the user clicks on the ‘Retrieve’ button, the Scholarship Requests with relevance to the entered filter and search parameters will be displayed.
- On the retrieved records, there will be icons to identify requests saved with the deviation criteria.
- To open a record to view, the user will have to click on the ‘Member ID’ in the record line.
- To edit, the user will have to click on the Edit icon. The Edit icon will only be visible if the record is not submitted and the logged in user has edit rights.

3.3.3. Viewing an existing University Scholarship Request

Function ID	MMS23
Function Name	Function 23 – MMS23 - Viewing an existing University Scholarship Request
Actor	District Office System User / Head Office System User

- To view, the user clicks on Member ID field of the correct Scholarship Request record from the University Scholarship List entry.
- The selected Scholarship record will open on the same screen as the University Scholarship screen.
- The information will be populated but the user cannot edit any fields.
- If the Scholarship Request record is in the “New” status, and if the user has edit rights, there will be an Edit Button on the screen.
- If the Scholarship record is in “Incomplete” status, the reason will be displayed next to the status, and the Submit and the Incomplete buttons will be disabled. The user must go to Edit Mode, which will enable these buttons to proceed.

- When a saved Scholarship Request is opened that is flagged to follow the deviation process, the reason for the deviation will be displayed on the Scholarship Request Entry itself.

- The deviation will be due to the below reason,
 - The Scholarship Request Date should be within the defined eligibility period from the last exam date. (This is defined in the University Scholarship Exam Master)

3.3.4. Edit Existing “Un-submitted” University Scholarship Requests

Function ID	MMS24
Function Name	Function 24 – MMS24 - Editing an existing “un-submitted” University Scholarship Request
Actor	District Office System User

- The user can edit an un-submitted Scholarship Request by,
 - Selecting the Edit option from the University Scholarship List against an un-submitted record.
 - Open an un-submitted Scholarship Request and select the Edit Button.
- The Edit screen will be same as “University Scholarship” screen, with all the fields editable.
- The authorized user can change the status of a record **within the following limitations from the View Mode.**

Current Status	Can change Status to
New	• Inactive (The user needs Inactive rights)
Incomplete	• New • Inactive (The user needs Inactive rights)
Submitted for Committee Approval	• New • Inactive (The user needs Inactive rights)
Submitted for Normal Board Approval	• New • Inactive (The user needs Inactive rights)
Submitted for Deviation Board Approval	• New • Inactive (The user needs Inactive rights)
Rejected	• Inactive (The user needs Inactive rights) • New
Inactive	• New

3.3.5. Submit University Scholarships for Approval

Function ID	MMS25
Function Name	Function 25 – MMS25 - Submit University Scholarships for Approval
Actor	District Office System User

- Once a saved request is opened in View Mode, the system user will have the facility to submit the request for the next step.
- Once submitted, the status of the request will be changed to “Submitted for Committee Approval”.
- All University Scholarships whether they are flagged to be under deviation process or normal process will follow this step.
- Once submitted, these records cannot be edited. But if the logged in user has the rights to change the status of the request, they can change the status from ‘Submitted for Committee Approval’ to ‘New’.
- Before submitting the request, the user will validate if all the necessary information is added. If not, or if there is a concern that the request cannot be submitted, the user will select “Incomplete” option.
- The system will ask for a reason for this through a popup screen.

- Once the reason is added, the Scholarship Request status will be updated as “incomplete” and will notify the Student and the Member through SMS and Email that the scholarship request is incomplete with the added reason.

3.3.6. Committee Approval for the University Scholarships

Function ID	MMS26
Function Name	Function 26 – MMS26 – Committee Approval for the University Scholarships
Actor	District Office System User

- Once the University Scholarships are submitted, the next step will be to validate the submitted scholarships by the University Scholarship Committee.
- For this, the relevant system user from the University Scholarship Committee will open the “University Scholarship List” entry.
- The user will have access to select “All” locations from the Location. The User will filter the Status as “Submitted for Committee Approval”.

- The user can click on the 'Member ID' of a University Scholarship record to open it in view mode.
- The user can validate the Scholarship information and either reject it or Approve it to forward for Board Approval.
- If the Scholarship is rejected, a popup will be displayed for the user to enter the reason for rejection. Once done, the status of the scholarship record will be updated as "Rejected" and the Student and the Member will be notified through SMS and Email with the reject reason.

- If the Scholarship record is approved, the status of the Scholarship Record will be changed as follows,
 - If the record is flagged to follow the deviation process, the status will be updated as “Submitted for Deviation Board Approval”.
 - If the record is not flagged to follow the deviation process, the status will be updated as “Submitted for Normal Board Approval”

3.3.7. Board Approve / Reject University Scholarships from the Normal Process

Function ID	MMS27
Function Name	Function 27 – MMS27 – Board Approve/Reject University Scholarships from the Normal Process
Actor	District Office System User

The following functionality explains the process of the University Scholarship requests that are on the Normal Process. (Requests that do not have any of the deviation criteria)

3.3.7.1. Create University Scholarship Normal Approval List

- Once the University Scholarship Requests are submitted and are in the ‘Submitted for Normal Board Approval’ status, the relevant user at the Head Office Location should be able to access and view them.
- The Head Office User will retrieve the submitted University Scholarship Requests and select them as bulk and create a University Scholarship Normal Approval List that will be presented on the Board Meeting. Once a University Scholarship Request is added to a University Scholarship Normal Approval List, the status of the record changes to “Added to Normal Board Approval List”.

The User Creates a University Scholarship Normal Approval List

Function ID	MMS28
Function Name	Function 28 – MMS28 - Create University Scholarship Normal Approval List
Actor	Head Office System User

- The Head Office User opens the “University Scholarship List” entry.
- The user will have access to select “All” locations from the Location. The User will filter the Status as “Submitted for Normal Board Approval”.
- The user can click on the ‘Member ID’ of a University Scholarship Request record to open it in view mode.
- By selecting the “select all” check box, the user will select all the retrieved records as bulk. **Only the University Scholarship Requests with “Submitted for Normal Board Approval”, and “Submitted for Deviation Board Approval” statuses can be selected from the check box.**
- A new button called “Create University Scholarship Normal Approval List” will be available for the user who has rights to create a University Scholarship Approval List.
- The “Create University Scholarship Normal Approval List” button will be displayed only if the requests with the “Submitted for Normal Board Approval” status is selected.

- Once the user clicks on the “Create University Scholarship Normal Approval List” button, a popup will display to select the Board Meeting Record. The Board Meeting records will be retrieved from the created Board Meetings in the Board Meetings Entry.
- Once the user saves the details, The selected University Scholarship Records will be attached to the selected Board Meeting record. The status of the selected University Scholarship Requests will change to “Added to Normal Approval List”.
- The system will confirm to the user that the University Scholarship Normal Approval List is created for the selected records. And if the user wishes to view the University Scholarship Normal Approval List record.

“The University Scholarship Normal Approval List for 3 requests has been created. Do you want to view the list?”

There will be Yes and No options for the user to select. If the user selects No, the popups will close. If the user selects Yes, the University Scholarship Normal Approval Lists entry will be opened.

Viewing the created University Scholarship Normal Approval List

Function ID	MMS29
Function Name	Function 29 – MMS29 - View University Scholarship Normal Approval List
Actor	Head Office System User

- The user opens the “University Scholarship Normal Approval Lists” Entry.
- The user can retrieve the created University Scholarship Normal Approval Lists by selecting All or selecting a Board Meeting date period.

- Once the user clicks on the 'Retrieve' button, the University Scholarship Normal approval lists are retrieved, the user can select a record and retrieve the requests within the University Scholarship Normal approval list record by clicking on the 'Retrieve University Scholarship Requests' button.
- Once the requests are retrieved, the user has the option of printing and or approving/rejecting the University Scholarship request.
- To open a University Scholarship request to view, the user can click on the 'Member ID' field of a record.

Deleting a University Scholarship Normal Approval List

Function ID	MMS30
Function Name	Function 30- MMS30 - Delete a University Scholarship Normal Approval List
Actor	Head Office System User

- When the authorized user who has the delete privileges for University Scholarship Normal Approval Lists opens this entry, a delete option will be available to remove a University Scholarship Normal Approval List record.
- They will see a “Delete List” button, when clicked, the system will ask confirmation, - *“Do you want to delete the selected University Scholarship Normal Approval List?”*
- If the user confirms, the University Scholarship Normal Approval List will be deleted, and all the Scholarship Requests attached to the list will be rolled back to the “Submitted for Normal Board Approval” status.

3.3.7.2. Printing the University Scholarship Normal Approval List for the Board Meeting

Function ID	MMS31
Function Name	Function 31 – MMS31 - Print University Scholarship Normal Approval List
Actor	Head Office System User

- To print a University Scholarship Normal Approval List, the user will open the University Scholarship Normal Approval List Entry and will retrieve the required University Scholarship Normal Approval List record by entering the Board Meeting date period or selecting ‘All’.

- Once the user clicks on the Retrieve button, the University Scholarship Normal approval list records are retrieved based on the selected filter.
- The user will select the required University Scholarship Normal Approval List record and click on the 'Retrieve University Scholarship Requests' button to retrieve the list of requests assigned to the University Scholarship Normal Approval List record.
- To print the selected University Scholarship requests list, the user will click on the 'Print' button.
- This will print the 'University Scholarship Normal Request List for Board Approval' report. The report layout is illustrated in the Annex section.

3.3.7.3. Approve/Reject University Scholarship Normal Requests

Function ID	MMS32
Function Name	Function 32 – MMS32 - Approve/Reject University Scholarship Normal Requests
Actor	Head Office System User

- To approve / reject University Scholarship Normal requests in a University Scholarship Normal Approval List, the user will open the University Scholarship Normal Approval List Entry and will retrieve the required University Scholarship Normal Approval List record by entering the Board Meeting date period or selecting 'All'.
- Once the user clicks on the Retrieve button, the University Scholarship Normal approval list records are retrieved based on the selected filter.
- The user will select the required University Scholarship Normal Approval List record and click on the 'Retrieve University Scholarship Requests' button to retrieve the list of requests assigned to the University Scholarship Normal Approval List record.
- All retrieved University Scholarship request records will be selected as 'Approve' by default. If there is a request that needs to be rejected, the user will have to select 'Reject' from the dropdown.
- If the Reject option is selected for a request, there will be a field activated to enter the reason for the rejection. **This is mandatory filed, where the user must fill for all rejected requests for them to proceed with the approval process.**

- Once the user completes marking the rejected requests, they will click on the “Proceed” button.
- This will open a confirmation popup screen for the user to confirm the details and also to add a comment if needed.
- This popup will show the Board Meeting Date as per the setup and also gives the facility to select the Actual Board Meeting Date, in case the meeting was postponed to another date. The Actual Board Meeting Date will also be a selection, with the values from the Board Meeting records created. By default, the Actual Board Meeting Date will be the same date as the Board Meeting Date.
- A facility for upload files will be available, this facility can be used to upload a scanned image of the approved ‘University Scholarship Normal Request List for Board Approval’ report.

- This popup will also display a summary of the requests in the list. It will show the total number of requests, the number of requests selected as approved and the number of requests to be rejected.
- If the user is satisfied with the details, they can click on the “Process” button to proceed. This will change the status of the University Scholarship Requests to ‘Approved’ or ‘Rejected’ depend on what option is selected.
- **If a University Scholarship Request is rejected, the status of the request will change to “Rejected”.** The Member and the Student will be notified through SMS and Email, indicating that their University Scholarship Request is rejected with the entered reason.
- For the University Scholarship Requests that are approved, an SMS message and an Email will be sent to the Member and the Student, indicating that their University Scholarship Request is approved.

3.3.7.4. Viewing a University Scholarship Normal Approval List after processing

Function ID	MMS33
Function Name	Function 33 – MMS33 - Viewing a University Scholarship Normal Approval List after processing
Actor	Head Office System User

- If the user retrieves a University Scholarship Normal Approval List record that is already processed, it will be opened in un-editable mode. There will not be options to Print or Process the requests.
- The name of the user who processed the list along with the date and time will be displayed.

3.3.8. Board Approve / Reject University Scholarships from the Deviated Process

Function ID	MMS34
Function Name	Function 34 – MMS34 – Board Approve/Reject University Scholarships from the Deviated Process
Actor	District Office System User

The following functionality explains the process of the University Scholarship requests that are on the Deviation Process. (Requests that have any of the deviation criteria)

3.3.8.1. Create University Scholarship Deviation Approval List

- Once the University Scholarship Requests are submitted and are in the 'Submitted for Deviation Board Approval' status, the relevant user at the Head Office Location should be able to access and view them.
- The Head Office User will retrieve the submitted University Scholarship Requests and select them as bulk and create a University Scholarship Deviation Approval List that will be presented on the Board Meeting. Once a University Scholarship Request is added to a University Scholarship Deviation Approval List, the status of the record changes to "Added to Deviation Board Approval List".

The User Creates a University Scholarship Deviation Approval List

Function ID	MMS35
Function Name	Function 35 – MMS35 - Create University Scholarship Deviation Approval List
Actor	Head Office System User

- The Head Office User opens the "University Scholarship List" entry.
- The user will have access to select "All" locations from the Location. The User will filter the Status as "Submitted for Deviation Board Approval".
- The user can click on the 'Member ID' of a University Scholarship Request record to open it in view mode.
- By selecting the "select all" check box, the user will select all the retrieved records as bulk. **Only the University Scholarship Requests with "Submitted for Normal Board Approval", and "Submitted for Deviation Board Approval" statuses can be selected from the check box.**

- A new button called “Create University Scholarship Deviation Approval List” will be available for the user who has rights to create a University Scholarship Approval List.
- The “Create University Scholarship Deviation Approval List” button will be displayed only if the requests with the “Submitted for Deviation Board Approval” status is selected.
- Once the user clicks on the “Create University Scholarship Deviation Approval List” button, a popup will display to select the Board Meeting Record. The Board Meeting records will be retrieved from the created Board Meetings in the Board Meetings Entry.
- Once the user saves the details, The selected University Scholarship Records will be attached to the selected Board Meeting record. The status of the selected University Scholarship Requests will change to “Added to Deviation Board Approval List”.

- The system will confirm to the user that the University Scholarship Deviation Approval List is created for the selected records. And if the user wishes to view the University Scholarship Deviation Approval List record.

“The University Scholarship Deviation Approval List for 2 requests has been created. Do you want to view the list?”

There will be Yes and No options for the user to select. If the user selects No, the popups will close. If the user selects Yes, the University Scholarship Deviation Approval Lists entry will be opened.

Viewing the created University Scholarship Deviation Approval List

Function ID	MMS36
Function Name	Function 36 – MMS36 - View University Scholarship Deviation Approval List
Actor	Head Office System User

- The user opens the “University Scholarship Deviation Approval Lists” Entry.
- The user can retrieve the created University Scholarship Deviation Approval Lists by selecting All or selecting a Board Meeting date period.
- Once the user clicks on the ‘Retrieve’ button, the University Scholarship Deviation approval lists are retrieved, the user can select a record and retrieve the requests within the University Scholarship Deviation approval list record by clicking on the ‘Retrieve University Scholarship Requests’ button.
- Once the requests are retrieved, the user has the option of printing and or approving/rejecting the University Scholarship request.
- To open a University Scholarship request to view, the user can click on the ‘Member ID’ field of a record.

Deleting a University Scholarship Deviation Approval List

Function ID	MMS37
Function Name	Function 37- MMS37 - Delete a University Scholarship Deviation Approval List
Actor	Head Office System User

- When the authorized user who has the delete privileges for University Scholarship Deviation Approval Lists opens this entry, a delete option will be available to remove a University Scholarship Deviation Approval List record.

- They will see a “Delete List” button, when clicked, the system will ask confirmation, - *“Do you want to delete the selected University Scholarship Deviation Approval List?”*
- If the user confirms, the University Scholarship Deviation Approval List will be deleted, and all the Scholarship Requests attached to the list will be rolled back to the “Submitted for Deviation Board Approval” status.

3.3.8.2. Printing the University Scholarship Deviation Approval List for the Board Meeting

Function ID	MMS38
Function Name	Function 38 – MMS38 - Print University Scholarship Deviation Approval List
Actor	Head Office System User

- To print a University Scholarship Deviation Approval List, the user will open the University Scholarship Deviation Approval List Entry and will retrieve the required University Scholarship Deviation Approval List record by entering the Board Meeting date period or selecting ‘All’.
- Once the user clicks on the Retrieve button, the University Scholarship Deviation approval list records are retrieved based on the selected filter.
- The user will select the required University Scholarship Deviation Approval List record and click on the ‘Retrieve University Scholarship Requests’ button to retrieve the list of requests assigned to the University Scholarship Deviation Approval List record.
- To print the selected University Scholarship requests list, the user will click on the ‘Print’ button.
- This will print the ‘University Scholarship Deviation Request List for Board Approval’ report. The report layout is illustrated in the Annex section.

3.3.8.3. Approve/Reject University Scholarship Deviation Requests

Function ID	MMS39
Function Name	Function 39 – MMS39 - Approve/Reject University Scholarship Deviation Requests
Actor	Head Office System User

- To approve / reject University Scholarship Deviation requests in a University Scholarship Deviation Approval List, the user will open the University Scholarship Deviation Approval List Entry and will retrieve the required University Scholarship Deviation Approval List record by entering the Board Meeting date period or selecting 'All'.
- Once the user clicks on the Retrieve button, the University Scholarship Deviation approval list records are retrieved based on the selected filter.
- The user will select the required University Scholarship Deviation Approval List record and click on the 'Retrieve University Scholarship Requests' button to retrieve the list of requests assigned to the University Scholarship Deviation Approval List record.
- All retrieved University Scholarship request records will be selected as 'Approve' by default. If there is a request that needs to be rejected, the user will have to select 'Reject' from the dropdown.
- If the Reject option is selected for a request, there will be a field activated to enter the reason for the rejection. **This is mandatory filed, where the user must fill for all rejected requests for them to proceed with the approval process.**

- Once the user completes marking the rejected requests, they will click on the “Proceed” button.
- This will open a confirmation popup screen for the user to confirm the details and also to add a comment if needed.
- This popup will show the Board Meeting Date as per the setup and also gives the facility to select the Actual Board Meeting Date, in case the meeting was postponed to another date. By default, the Actual Board Meeting Date will be the same date as the Board Meeting Date.
- A facility for upload files will be available, this facility can be used to upload a scanned image of the approved ‘University Scholarship Deviation Request List for Board Approval’ report.

- This popup will also display a summary of the requests in the list. It will show the total number of requests, the number of requests selected as approved and the number of requests to be rejected.
- If the user is satisfied with the details, they can click on the “Process” button to proceed. This will change the status of the University Scholarship Requests to ‘Approved’ or ‘Rejected’ depend on what option is selected.
- **If a University Scholarship Request is rejected, the status of the request will change to “Rejected”.** The Member and the Student will be notified through SMS and Email, indicating that their University Scholarship Request is rejected with the entered reason.
- For the University Scholarship Requests that are approved, an SMS message and an Email will be sent to the Member and the Student, indicating that their University Scholarship Request is approved.

3.3.8.4. Viewing a University Scholarship Deviation Approval List after processing

Function ID	MMS40
Function Name	Function 40 – MMS40 - Viewing a University Scholarship Deviation Approval List after processing
Actor	Head Office System User

- If the user retrieves a University Scholarship Deviation Approval List record that is already processed, it will be opened in un-editable mode. There will not be options to Print or Process the requests.
- The name of the user who processed the list along with the date and time will be displayed.

3.3.9. Viewing an Approved University Scholarship

- When the user opens an approved University Scholarship from the “University Scholarship List” entry, the Scholarship Screen will have some additional information.
- Under the Member details, the screen will display the “Total Scholarship Amount” eligible for the student, the “Total Disbursed Amount” as of now and the “Last Disbursement Date”.
- The Total Scholarship Amount will be picked from the University Master for the selected Study Program and the entered duration of the course.
- If the Student has a Minor Account created and if the Total number of months remitted for the Minor Account with Rs.500 (this amount is configurable) or more until the last month of the exam, as mentioned in the “No. of months the Minor Account is remitted with the req. amount” filed in the University Scholarship Entry is equal to 120 or more, then the Total Scholarship Amount will be multiplied by 1.5 (this multiplier is configurable). For example, if the scholarship amount for the selected program is Rs. 36,000 if the Minor Account remittances satisfied the above-mentioned criteria, then the scholarship amount will be increased to Rs. 54,000.

- The entry will have two different tabs (sections) to display the Scholarship Request Details and the Fund Requests made against the Scholarship.
- The above image displays the information on the Scholarship Request Tab. Which is the same information that was filled when creating the Scholarship Request.
- The Fund Request Tab is displayed below. It will show the Fund Requests made against the Scholarship and the disbursement details. It will also have the facility to create a new Fund Disbursement Request (for the authorized User).

- The user can view the Fund Request in detail by clicking on the “Open” button. Which will open the “University Scholarship - Fund Request Entry” with the relevant details populated.

3.3.10.Edit Existing “Approved” University Scholarship Record

Function ID	MMS41
Function Name	Function 41 – MMS41 - Editing an existing “Approved” University Scholarship Record
Actor	District Office System User

- Once a University Scholarship record is approved, it cannot be edited by the normal user.
- However, there will be a special authorization where defined uses can edit some information recorded on a University Scholarship after approval.
- The facility will be used to update the Academic Start Date, Disbursement Bank Details and whether the student has applied for a special degree or not.
- For the user who has the authority to edit, there will be a “Edit Details” button when an Approved University Scholarship is opened.
- When the user clicks on the “Edit Details” button, the “Edit University Scholarship Details” screen will open, which will contain the Scholarship request details with the following fields editable,
 - Minor Account Status (Has a Minor Account and Total Months Remitted fields)

- Academic Year - Start Date
 - Special Degree Flag
 - Bank
 - Bank Branch
 - Bank Account Number
- Once the necessary information is updated, the user will click on the “Update” button to save the latest details.

3.3.11. Creating a University Scholarship Disbursement Request

Function ID	MMS42
Function Name	Function 42 – MMS42 – Create a University Scholarship Disbursement Request
Actor	District Office System User

- The Member or the Student comes to the Head Office or send the required details to the Head Office for a University Scholarship Disbursement Request.
- The Head Office System User search and open the Approved University Scholarship record from the University Scholarship Entry, for the student from the system.
- The Head Office System User will update the “Academic Year - Start Date” field and the Bank Details of the Student, if they are not updated in the University Scholarship Record. (Please refer the section 3.2.10)
- The Head Office System User selects the “Add New Request” in the Fund Requests section on the University Scholarship Entry.

- The “Add New Request” button will be available **only if the Total Disbursement Amount for the Scholarship is less than the Total Scholarship Amount.**
- When the “Add New Request” button is clicked, the system will validate if the values in the following fields are entered.
 - Academic Year – Start Date
 - Bank
 - Bank Branch
 - Bank Account Number

If any of these values are not entered, the system will show an error message *“Academic Start Date or the Student Bank Details are not updated. This information are required to be entered before creating a Fund Requests”*

- The user can enter these values by editing the University Scholarship Record. ((Please refer the section 3.2.10)
- Once the “Add New Request” button is successfully selected, this will open the “University Scholarship – Fund Request” entry to enter the fund request information.
- The system user will have the facility to upload files against the request, such as the Course Progress Report, Payment Voucher and other required documents. The mandatory document types to be uploaded for a University Scholarship Fund Request will be predefined and the system user must upload the files to the mandatory document types before submitting the request for approval. (The user still can save the request)
- The user can save the University Scholarship Fund Request once the data are entered. Once saved, the Scholarship Request record will have the “New” status. The user will have the facility to open a saved request record and edit if needed.

- If the Member has applied for University Scholarships previously, the number of scholarships will be displayed in the “Total University Scholarships” field in the Member Details section. If the value is more than ‘0’, there will be a ‘View Details’ option. When clicked, a list of scholarships applied by the Member will be displayed,

- In this popup, when the 'View' link is clicked, the relevant scholarship record will be opened from the Scholarship Entry.
- When saving the Fund Request Entry, the system will validate the following criteria.
 - Validate if the value in the "Requested Period" not more than the value in the "Available Period" field.
 - Validate if the value in the "Amount" field is not more than the value in the "Balance Amount" field.
- The Disbursement Amount and the Disbursed Date will be filled only after the disbursement has been done in the system for the request.

List of Fields

Field Name	Description	Retrieved from	Editable	Mandatory
Fund Request ID	The Fund Request ID is auto generated on save. On new requests it will display as 'NEW' since no ID is created yet. If an existing University Scholarship Fund Request is selected, the appropriate Fund Request ID will display.	Auto generated	N	-
Status	The status of the record will appear here. Once saved the status will change to 'New', and will progress/can be changed to following, <i>New, Submitted for Approval, Rejected, Approved, Inactive</i>	Auto generated / User select	N	-

3.3.12. Searching the existing University Scholarship Fund Requests

Function ID	MMS43
Function Name	Function 43 – MMS43 – Searching the existing University Scholarship Fund Requests
Actor	District Office System User / Head Office System User

- The Head Office System User can search for the created University Scholarship Fund Requests from the “University Scholarship Fund Requests List” entry.
- The “University Scholarship Fund Request List” entry will display all the University Scholarships Fund Requests done within the system.
- There will be multiple filter options available on this screen.
 - Location – **This will be a multi-select dropdown. The user can select multiple locations from here.** If the logged in user has only access to the current district location, this field will be un-editable and the current location (the location the user has access to) will be auto selected. If the user has access to multiple locations, or if the user is a Head Office user, this **dropdown will be enabled to select ‘All’ locations or a specific location.** By default, for District Locations the current location will be selected and for Head Office, ‘All’ will be selected (depend on user access rights).

- Request Received On – This filter can be used to retrieve Fund Requests within a given date period. This dropdown will have,
 - All Days -Which will show all Fund Requests irrespective of the Requested Date.
 - This Month – Fund Requests received within the current month
 - This and last month – Fund Requests received within the current month and last month.
 - Date Period – Here the user can select a From Date and To Date. All Fund Requests received within the given date range will be retrieved.

By default, 'All Days' will be selected.
- Status – **This will be a multi-select dropdown. The user can select multiple statuses from here.** This dropdown will have the following statuses,
 - New
 - Submitted for Approval
 - Rejected
 - Approved
 - Inactive

By default, All statuses except, Rejected, Approved and Inactive will be displayed.
- The user will have a search option to further filter the Fund Requests retrieval. The search will be applied to the filtered records. The user can search based on Member name, Member number, Student Name, Student NIC number, Examination Number or Scholarship ID. The search key entered by the user will be used to search through the University Scholarship Fund Requests created in the system. Records with any similar matches will be retrieved.
- A Sort option will be available where the user can select different sort options from a dropdown. The following sort options will be available.
 - Fund Requested Date – sort based on the requested date of the Fund Requests
 - Status – The Scholarship Requests will be sorted based on the status
 - Scholarship ID – The Scholarship Request will be sorted based on Scholarship IDs

By default, "Fund Requested Date" will be selected for sorting. There will be an option to select Ascending and Descending order of the sorted records. By default, this will be set to Ascending.
- Once the user clicks on the 'Retrieve' button, the Fund Requests with relevance to the entered filter and search parameters will be displayed.
- To open a record to view, the user will have to click on the 'Fund Req. ID' in the record line.
- To edit, the user will have to click on the Edit icon. The Edit icon will only be visible if the record is not submitted and the logged in user has edit rights.

3.3.13. Viewing an existing University Scholarship Fund Request

Function ID	MMS44
Function Name	Function 44 – MMS44 - Viewing an existing University Scholarship Fund Request
Actor	Head Office System User

- To view, the user clicks on Fund Req. ID field of the correct Fund Request record from the University Scholarship Fund Requests List entry.
- The selected Fund Request record will open on the same screen as the University Scholarship Fund Request screen.
- The information will be populated but the user cannot edit any fields.
- If the Fund Request record is in the “New” status, and if the user has edit rights, there will be an Edit Button on the screen.
- If the Scholarship Fund Request record is in “Incomplete” status, the reason will be displayed next to the status, and the Submit and the Incomplete buttons will be disabled. The user must go to Edit Mode, which will enable these buttons to proceed.

3.3.14.Edit Existing “Un-submitted” University Scholarship Fund Requests

Function ID	MMS45
Function Name	Function 45 – MMS45 - Editing an existing “un-submitted” University Scholarship Fund Request
Actor	Head Office System User

- The user can edit an un-submitted Scholarship Fund Request by,
 - Selecting the Edit option from the University Scholarship Fund Request List against an un-submitted record.
 - Open an un-submitted Fund Request and select the Edit Button.
- The Edit screen will be same as “University Scholarship Fund Request” screen, with all the fields editable (only the fields that were editable in the New Mode).
- The authorized user can change the status of a record **within the following limitations from the View Mode.**

Current Status	Can change Status to
New	• Inactive (The user needs Inactive rights)
Submitted for Approval	• New • Inactive (The user needs Inactive rights)

Rejected	• Inactive (The user needs Inactive rights) • New
Inactive	• New

3.3.15.Submit University Scholarships Fund Requests for Approval

Function ID	MMS46
Function Name	Function 46 – MMS46 - Submit University Scholarships Fund Requests for Approval
Actor	Head Office System User

- Once a saved request is opened in View Mode, the system user will have the facility to submit the request for the next step.
- Once submitted, the status of the request will be changed to “Submitted for Approval”.
- Once submitted, these records cannot be edited. But if the logged in user has the rights to change the status of the request, they can change the status from ‘Submitted for Approval’ to ‘New’.
- Before submitting the request, the user will validate if all the necessary information is added. If not, or if there is a concern that the request cannot be submitted, the user will select “Incomplete” option.
- The system will ask for a reason for this through a popup screen.

- Once the reason is added, the Scholarship Fund Request status will be updated as “incomplete” and will notify the Student and the Member through SMS and Email that the scholarship request is incomplete with the added reason.

3.3.16. Approval for the University Scholarship Fund Request

Function ID	MMS47
Function Name	Function 47 – MMS47 –Approval for the University Scholarship Fund Request
Actor	Head Office System User

- Once the University Scholarship Fund Requests are submitted, the next step will be to validate the submitted scholarships by the authorized user and either approve or reject the request.
- For this, the relevant system user will open the “University Scholarship Fund Request List” entry.
- The user will have access to select “All” locations from the Location. The User will filter the Status as “Submitted for Approval”.

- The user can click on the 'Fund Req. ID' of a Fund Request record to open it in view mode.
- Once the Fund Request record is opened, the user can validate the information and either Reject it or Approve it.

- If the Fund Request is rejected, a popup will be displayed for the user to enter the reason for rejection. Once done, the status of the Fund Request record will be updated as “Rejected” and the Student and the Member will be notified through SMS and Email with the reject reason.
- If the Fund Request record is approved, the status of the Fund Request Record will be changed as ‘Approved’ and the details of the Fund Request will be forwarded to the Finance Module to process the disbursement. The Student and the Member will be notified through SMS and Email that the Fund Request is approved.

3.3.17. Integrate the Approved University Scholarship Fund Requests with Finance Module

Function ID	MMS48
Function Name	Function 48 – MMS48 - Integrate University Scholarship Fund Requests with Finance Module
Actor	System

- Once the above mentioned, University Scholarship Fund Request approval is completed, the system will send the details of the approved Fund Request to the Finance Module to proceed with their activities.
- The data in this integration will be sent through APIs.
- **Once the funds are disbursed for the Fund Request, if the total scholarship amount is fully disbursed, the University Scholarship record will be made ‘Inactive’.**
